Tom Pavich, Department of Public Works, presented. Dale Miller commented on the millions of dollars the County spends on software licenses and asked if there was any thought to coordinate software purchases with Department of Information Technology, to prioritize purchases and possibly achieve cost savings; said licensing purchases need coordination and a systematic approach in this large operation, where a lot of money is spent for these services; and said the Department of Information Technology needs to work with various departments to get a handle on overall activity for license purchases to reap potential savings. Leigh Tucker motioned to approve the item; Dale Miller seconded. Item BC2022-372 was approved by unanimous vote.

BC2022-373

Funding Source: IT Security & Disaster Recovery Fund

Dennis Sullivan and Jeremy Mio, Department of Information Technology, presented. Nan Baker asked for clarification on what the overall price for all phases of this project will be; asked how this project interacts with Enterprise Resource Planning System; asked if future purchases related to this long-term project will go to Board of Control or Council Committee for further discussions on goals and costs; said the anticipated amounts for future phases seem high for Board of Control consideration; and asked what form of protection is in place currently. Dale Miller asked if this is considered a Disaster Recovery Project or is the scope broader; asked what the name of the project was, its' overall purpose and total estimated cost; asked if the purpose is to protect the County from critical failures; said that a general information session for Finance and Budgeting Committee may be necessary. Ms. Baker concurred with Mr. Miller's recommendation for Committee discussion. James Boyle asked for more information on Nexum, Inc.; asked if there will be 3-4 more phases for the project; asked if Nexum, Inc. will be involved in those phases; said that using an RFP exemption to select this provider because they have familiarity with the project and has done good work in the past is problematic because it gives them a leg up on the competition for future phases of the project; said that use of RFP exemptions should be the exception rather than the rule because this may start as a \$14,000.00 purchase but could potentially be much larger as the project evolves; said there may be a different discussion if this was a State contract; and asked for clarification on the funding source. Paul Porter said that future hardware purchases related to this project may not require an RFP exemption; said that having a provider with familiarity of the architecture of the existing data center can give the County an advantage rather than someone who needs to learn about our disaster recovery infrastructure; and said that this may not have been competitive had it been bid, due to the low amount. Mr. Boyle concurred with Mr. Porter's comments but restated his concern for the continuation of using bidders in the County employ, rather than open to competition. Leigh Tucker motioned to approve the item; Dale Miller seconded. Item BC2022-374 was approved by unanimous vote.

BC2022-375

Court of Common Pleas/Corrections Planning Board, submitting an amendment to Contract No. 628 with Microgenics Corporation/Thermo Fisher Scientific for on-site drug detection services for the period 7/1/2019 – 6/30/2022, to extend the time period to 6/30/2024 and for additional funds in the amount not-to-exceed \$251,766.08.

Describe the exact services being provided. The anticipated term is 04/27/21 – 12/31/2021. Child is 14, she was in a crisis bed for 10 days a Bellfaire for 2 weeks. The parents report these concerns started at onset of adolescence. Family has tried multiple mental health medications and psych assessments in the past. She has an IEP and in a behaviorally focused. Had been ready for discharge from hospital for 2 weeks before placement could be secured, and contracted providers indicated they could not meet her needs at the time.

This child is 15, acting out in paternal grandmother's home, however ended up accumulating new charges related to fire setting and property damages. Ended up in Mahoning Co. dh and eventually transferred to Cuyahoga. Since she's been in dh, assaulted staff, continued property damage. Department of Public Works – Alternative Procurement – Award to 3 vendors instead of 2

Scope of Work Summary

The Department of Public Work is requesting an Alternative Procurement purchasing process that will allow the County to award to three (3) vendors instead of the advertised two (2) per the already closed RFQ for Construction Management/Construction Support Services.

The purpose of the construction management/support services contract is to provide construction management and construction support services required for various county funded roadway and bridge construction projects. To satisfy that function, the County must have vendors in place that are able to assist our construction department and will allow this office to continue to maximize our resources (staff and financial) to address our infrastructure needs.

The primary goal of this request is to allow the Department of Public Works authority to award to three (3) vendors instead of the advertised two (2) per the RFQ. The Department of Public works has identified the need to hire an additional vendor now, so that the current workload can be handled, as well as hopefully preventing the need to award similar contracts next year. Once approved, Public Works will collaborate with the Purchasing Department to award three (3) contracts in INFOR.

12/9/2021 Submitted Amendment No. 3 to CM 1551 into infor. It was late because consultant switched PM and I had issues getting the paperwork I needed.

1/12/2022 disapproved by OPD, resubmitted corrected forms

1/12/2022 OPD created Cover Sheet and revised the Checklist

End of Jan. we thought the item was approved and went into infor and it said it "ready to be activated". So I activated it.

Went back into in February and saw that it did not activate so I activated it again.

I asked for help in February and after numerous help tickets and no resolution. Help desk said I would have to do a contract copy in April.

I did the Contract copy CM 2448 and released it.

4/28/2022 disapproved by OPD. I need to get all background information on encumbered amounts and paid amounts and needed OBM Approval of amounts. It took some time because Matt had to go back thru Famis. Released it.

Beginning of June found out it was never approved the system had set the "ready to be activated" itself. Worked with OPD to get this on a meeting for approval.
